How does Fishers Junior High benefit from having families from this country as a part of our school and community?

- Fishers junior high Benefits from having families from Tanzania as a part of our school and our community by being diverse. If we just had families from America then it would be kind plain and dry. Im not saying a few people from a country can change the whole community. But what I am saying is that a few people from 10-15 countries can most definitely change a community. So we benefit by having more diverse culture here in fishers.
