# HOW DOES FISHERS JUNIOR HIGH BENEFIT FROM HAVING FAMILIES FROM THIS COUNTRY AS A PART OF OUR SCHOOL AND COMMUNITY?

The diversity that different cultures bring are huge but the most diverse country ever, is India. With 100s of languages and religions and cultures everyone has different beliefs and different wonders. Indians take academics quite seriously, so far to the point where even an A- wouldn't be good. Indians also bring different foods and whether you like them or not, it's a real experience to try them. A lot of Indians are in the IT department, so a lot of different things can help be done by them. Other than bringing diversity and hard working people, there isn't much else to say. But mixed in with the other cultures, Indians are gonna stand out.
